

K485D

FLYTECH

15" Quick-service/ Self-Check out Kiosk

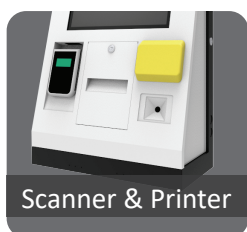

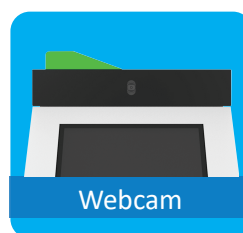

Design Highlights:

The K485D is a sleek and compact self-checkout/self-service kiosk which is designed to deliver simpler, faster customer experience. Built with Flytech's POS485 as the core, its high performance can ensure a seamless and efficient self-checkout process. The small footprint of the K485D can help to save up valuable shop space, allowing it to be fit into different retail or F&B environments.

The K485D comes with three variations (Desktop/Wall-mounted/Standalone Version). Its modularised design allows you to build your own kiosk with different peripheral options, such as Octopus and/or Paywave Reader, RFID/NFC Reader, Thermal Receipt Printer, 1D/2D Barcode Scanner, EFT Device, Webcam as well as LED Signal Lighting.
